With the increasing availability of worldwide web SDRs, the time has come to introduce the **brand-new GNDBH 2018**. It will give you all the information you need to check for NDBs, regardless where you're listening from. The Global NDB handbook contains a wealth of data, listing more than **16500 NDBs worldwide**. Due to the large number of NDBs listed, this version of the handbook comes in the CD and / or download version only.

The **ENDBH 2018** will provide you with the most up to date NDB information available on 150+ spiral-bound pages in A4 format. It contains data of more than **7300 NDBs** located throughout Europe, the Northern African countries, and the Near and Middle East. Many of the more frequently heard transatlantic NDBs have been included, as well as NDBs operating from offshore installations such as oil platforms. Moreover the handbook lists widely reported unidentified beacons and irregular call signs which result from so-called "negative keying". Many a NDB mystery may be solved with this kind of information on hand.

The **NANDBH 2018** with its 130+ pages is aimed at DXers located in North and South America, respectively, and contains data of more than **5900 NDBs** located throughout North, Central and South America, the Caribbean and the Pacific.

The layout of the NDB handbooks is arranged for ease of use: part 1 (the reference list) shows the entries sorted by alphabetical order of the call sign and lists the carrier frequency, the modulation frequency, the authority or company taking care of the NDB, name and location of the NDB, country in ITU code, geographical coordinates, distance, Great Circle bearing and Maidenhead grid locator. Part 2 of the handbook is sorted in frequency order, part 3 in country order, and part 4 gives details of decommissioned NDBs.

The **CD version** of the respective handbook contains all chapters of the printed version in the popular PDF file format. Having the NDB data available on your PC will allow you to easily search for specific entries. And if you would still like a printed version of the handbook, you can print it on your own now. The CD contains some additional "bonus tracks" which I hope you'll enjoy. This includes over **360 NDB pictures** and more than **320 NDB sound clips** plus some useful software packages to produce Great Circle maps or to calculate Great Circle distances and bearings, respectively. The CD does also contain **a Google Earth compatible waypoint file** so that you can "visit" NDB locations around the globe. To run the CD you'll need a standard PC with CD-ROM drive and Microsoft Windows operating system.

As a special benefit to the users of my NDB handbooks, **the distances and Great Circle bearings are computed for the individual listener's location.**

Please don't forget to **specify the geographic coordinates of your listening post when ordering** (recommended format to be used: degrees/minutes/seconds). Please let me know whether you prefer the distances shown either in kilometers or in miles.

Comments from users

I received the handbooks yesterday and I am overjoyed that I found out about them! They're very nicely done, the layout of the information in different ways and the spiral binding makes them very easy to use. I like the satellite photo showing the nearest beacons, that's a nice touch! Thank you so much for your work, it's greatly appreciated!

Ja, eine prima CD! Da gibt's nichts dran auszusetzen. Ganz toll gemacht.

Michael "das Buch ist angekommen". Und ich muss sagen, es war das Warten wert. Schon langer Zeit, dass jemand versteht wie man so ein solches Buch herstellt. Große Klasse.

No problem with the CD download, the information they collect are increasingly extensive and an essential support for me.

Vielen Dank für die CD. Wie immer eine tolle Sache. Funktioniert hier super.

Lieben Dank für das neue ENDBH. Der Download hat funktioniert. Alles ufb. Ich muss mir das alles mal genau ansehen.

Just to let you know that I received your handbook yesterday. It is an excellent source of information and I like the way it is sorted into categories i.e. freq., alpha and country. I especially like the distances for the beacons from Bath. It will be a great help if I decide some day to report my findings to the LWCA.

Thank you so much! Thanks for sending it in really good time for the expedition. It sure looks fine. And it sure works fine as well.

(GN / Sweden / Oct 2016)

Fine job! I like it very much and everything seems to work OK!

(KS / Finland / Oct 2016)

Danke für das Handbuch. Der Download hat problemlos funktioniert. Ich bin sehr überrascht über die Vielfalt des Angebots. Die Gliederung der NDBs nach verschiedenen Kriterien war mir von der Information über die adx Runde bekannt. So etwas würde ich mir von anderen Handbüchern auch wünschen. Mit den Photos, Hörbeispielen und auch der Software geht das ENDBH weit über meine Erwartung hinaus.

I've downloaded and unzipped although I haven't gone through it in detail yet. But it looks great and really nice to have it personalized for my location.

(BM / USA / Jul 2016)

Komme erst jetzt dazu, mich für die wieder sehr gelungene Ausgabe des ENDBH zu bedanken! Dann kann der Herbst ja kommen.

(RKA / Germany / Jul 2016)

Alles funktioniert einwandfrei. Für die Identifizierung von NDBs ist sie mir eine unverzichtbare und unüberbietbare Hilfe. Besonders toll: Die Anpassung an meine geographischen Daten. Ich ahne, wieviel Mühe in der Zusammenstellung und Pflege der vielen Daten steckt.

(JE / Germany / Jul 2016)

I had no problem with the CD download; your job is as always very accurate and valuable for us.

(GB / Italy / Jun 2016)

Many thanks for the files, have had a quick look at them and they look great.
(MN / UK / Apr 2016)

Sieht alles sehr gut aufgearbeitet aus und die Optimierung auf den eigenen Standort ist natuerlich ufb :-)
Danke!

Das ENDBH 2015 ist heute eingetroffen. Es gefällt mir sehr gut.
(UvB / Germany / Jul 2015)

Yes, I have downloaded it, and had it printed and spiral bound at a local copy shop. I am very pleased with it and have ID'd some "mystery" beacons that were relatively close, but not listed on some of the internet sources. You did a great job on the handbook! Now we'll have to see if we can hear some DX between all the summer static crashes!
(AE / USA / May 2015)

Today I received the handbook. I like it very much, lots of very good info!!
(HS / Netherlands / Mar 2015)

Got it. The CD is great as always. Nice job, Michael
(AB / Netherlands / Mar 2015)

I received the CD in today's mail. The severe winter weather on the east coast of the US has really (!) slowed down the mail. The CD is in perfect condition and plays just fine. Thank you for your help!
(BC / USA / Feb 2015)

Brilliant, thank you, I think it should be compulsory for every DXer to have a copy in their shack, it's the Beaconeer's Bible! Great photos and sound files too.
(AG / UK / Feb 2015)

Download hat geklappt. Ich hoffe ich komme dieses Wochenende dazu ein wenig damit zu arbeiten.
Erster Eindruck: Klasse. Vor allem mit der Anpassung an den eigenen Standort.
(SW / Germany / Feb 2015)

Many thanks, no problem with the download, and the CD seems to be up to your usual standard.
(VK / South Africa / Feb 2015)

Wow! Great collection of information. Download went perfectly. I look forward to using the information for my NDB DXing.
(GH / Canada / Jan 2015)

No problem with download. Thanks for your great job.
(GB / Italy / Jan 2015)

NDB handbook downloaded. Everything is fine. Beautiful work.
(MC / Czech Republic / Jan 2015)

Everything is perfect as usual ... Your map of nearest NDB even made me discover 381 HTB Beauvechain, I've yet never heard ...! I do hope you'll carry on this publication as long as you can and the last NDB remains active.
(JJ / France / Jan 2015)

Download hat bestens funktioniert. Die CD macht einen sehr guten Eindruck, aber ich brauche erstmal etwas Zeit, um mir alles in Ruhe anzusehen.
(MH / Spain / Jan 2015)

Hat hervorragend geklappt! Vielen Dank. Mit dem Inhalt werde ich mich erst noch befassen. Auf den ersten Blick: da ist jetzt viel mehr drin als bei meiner letzten Liste von vor etlichen Jahren.
