

CLE230 - Missing NDBs? – NORTH AMERICA

Here is the short list, made from the large number of NDBs that were missing from North America's CLE230 logs and may now be closed down.

I selected them using judgement, based on:

- when they were Last Logged ('Last Lgd' below),
- their total number of reported Loggings ('Logs'),
- the number of radio countries ('RCs') from which they had been heard
- and those actual countries ('Heard In') compared with where our CLE230 reporters were located.

Our thanks to Don who has searched the NOTAMs, etc. to confirm and explain their apparent disappearance where possible.

His findings are in the final 'Notes' column.

The list is in order of the 'Last Logged' dates and it covers CLE230's two frequency ranges.
