

# CLE214 'STARTER RESULTS', REST OF THE WORLD

Now, my best shot at a harvester-free set of initial results for Rest of the World listeners.

It was done by manual checking and counting, so it may contain a few reporting errors that the programs would have found and, more likely, other mistakes that I've made. (Please let me know of anything that looks significantly wrong).

Eventually, when most of us have almost forgotten the Noah Listening, I hope to send the usual full set of results from the CLE.

Despite the delay in making the full combined results, there are a few things about the Noah listening and about the current problems here that I have already noted for a 'Coordinator's Comments' - I hope to send that in a day or two.
