

## CLE232 MISSING NDBs - EUROPE

Here is a short list in the 320 – 335 kHz range, made from the large number of NDBs that were missing from Europe’s CLE232 logs and may now be closed down.

I selected them using judgement, based on:

- when they were Last Logged (“Last Lgd” below),
- their total number of reported Loggings (“Logs”),
- the number of radio countries (“RCs”) from which they had been heard
- and those actual countries (“Heard In”), compared with where our CLE232 reporters were located.

Our thanks to Don who has searched the NOTAMs, etc., to confirm and explain their apparent disappearance where possible.

His findings are in the final “Notes” column.

The list is in order of the “Last Logged” dates.

| kHz | C/S | Location                  | Cou | st | Cont | Logs | Last Lgd | 1st Lgd | RCs | Heard In  | Notes                                    |

Don advises that 'no info' means that he could not find any 'official' reason like a NOTAM for the NDB to be off air. Some of these could have been deleted and the NOTAM removed. There are a few where he could find nothing but a note stating the NDB was decommissioned/deleted but continued on air for a time, like S 334.

The equivalent list for North America will follow.  
(If anyone spots something wrong please let me know!)
