* Please note that the log times shown here for Christoph are incorrect or missing.
This is because his log showed the UTCs to the right, after distances from NDBs.
I am sorry that correction of this problem would have taken me too long.

For full details, please see the individual reporters' logs,
as previously posted by them to the List.

If you spot an omission or problem in your own details below
please let me know so I can improve the combining process.

BEACONS HEARD:

brian@keyteb.freemove.co.uk

Beacons are shown in kHz order within each country

The numbers shown within the table are the times in 'hh' UTC that the beacons were logged.
(e.g. 22 indicates logged between 22:00-22:59). 00:00 is assumed if no time is given.
If a beacon was logged more than once by a reporter, the lowest 'hh' value is shown.
